

Established in 1897, Godrej is one of India's oldest and most trusted brands. Over 600 million people use our products and services every day - from consumer goods and furniture, real estate and power distribution to infrastructure development, industrial logistics, precision manufacturing and aerospace. Our founder, Ardeshir Godrej, was a persistent inventor and a strong visionary who could see the spark in the future. We believe that while our past distinguishes us, we are only as good as what we do next.

While remaining an integral part of India, fully one-fourth of Godrej business is conducted globally in more than 60 countries. At Godrej, we enable you to do work that's good for you, your customers, your community and good for the people around you - essentially, work that you can be proud of.

We are looking for a mid-management level team member in our R&D team – Godrej Appliances Division.

The position is based in Mumbai.
