Inviting Creative Web/UI Designers

Squad Technologies Private Limited is looking for creative, enthusiastic, and dedicated individuals/students who are doing their industrial trainings and or final projects, and are passionate about user-centered design and interested in being part of a dynamic, collaborative environment. Our talented staff is energized by building and contributing to excellent user experiences. With these positions, we aim to improve the discoverability, accessibility and usability of our digital products and services while maintaining a strong focus on user-centered design. We are looking for individuals who are innovative, flexible, self-motivated, and can take ownership of an idea or project to deliver tangible results.

Responsibilities

Working with our team, you will help transform complex ideas and challenges into simple and elegant user experiences that millions of people can use on our websites every day. You will be responsible for:

- Variety of projects: Web applications, consumer engagement funnels, presentations, ads, illustrations, logos
- User Research: Understand how users interact with our sites through analytics, observation, and testing.
- Interaction & Interface Design: Define the way our sites interact with users in order to make it simple, user-friendly, and beautiful.
- Prototyping & Testing: Create interactive prototypes to test your designs and ideas in front of real users. Iterate and evolve your concepts into a digital product.
- Working with Teams & Clients: Collaborate with fellow designers, developers, sales teams, and real users to solve design problems and create intuitive solutions.

You should:

- Possess a pixel-perfect level of attention to detail
- Be an expert with Photoshop and Illustrator
- Be able to create cross-browser and cross-platform compatible designs
- Have clear understanding of color theory, web typography, spacial balance, and user psychology
- Have strong portfolio with an outstanding body of work that demonstrates experience in designing usable web-based interfaces

Growth prospects:

- Immense opportunity to kick-start your creative career
- Great values, great people and great clients
- Possibility to work remotely from home
- Opportunity to learn, and work on big international and government projects, diverse industries and get exposure to wide variety of company cultures
- Competitive, comprehensive compensation and benefits
- Great office setup in one of the India's major city
- Opportunity for inter-company transfer for an on-site opportunity
